SUBJECT INDEX

Acromioclavicular dislocation
Surgical treatment of complete acromioclavicular dislocation using the coracoacromial ligament and coracoclavicular fixation: Report of a technique in 14 patients, 507

Acute segmental defects
Structural allografts for reconstruction of lower extremity open fractures with 10 centimeters or more of acute segmental defects, 222

Adductor hiatus
Anatomy of the medial distal femur: A study of the adductor hiatus, 63

Aminoglycoside
Bone toxicity of locally applied aminoglycosides, 401

Anatomic reduction
Fractures of the radial head treated by internal fixation: Late results in 26 cases, 318

Anatomy
Internal fixation of calcaneus fractures: An anatomical study of structures at risk, 107

Anesthesia
Reduction of forearm fractures in children using axillary block anesthesia, 407

Ankle
Articulated external fixation of pilon fractures: The effects on ankle joint kinematics, 76

Early versus delayed treatment of severe ankle fractures: A comparison of results, 377

Hematoma block for ankle fractures: A safe and efficacious technique for manipulations, 113

The use of sonography for evaluation of the integrity healing process of the tibiofibular interosseous membrane in ankle fractures, 98

Ankylosis
Retrograde femoral nailing between an ankylosed hip and a stiff knee, 266

Anterior dislocation
Traumatic anterior dislocation of the radial head in an adult, 441

Anterior pelvic ring disruptions
The retrograde medullary superior pubic ramus screw for the treatment of anterior pelvic ring disruptions: A new technique, 35

Antibiotic solutions
Toxic effects of wound irrigation solutions on cultured tibiae and osteoblasts, 303

Antiseptic solutions
Toxic effects of wound irrigation solutions on cultured tibiae and osteoblasts, 303

Aseptic tibial nonunions
Intramedullary nailing of aseptic tibial nonunions without the use of the fracture table, 128

Autoclave
Reimplantation of a contaminated and devitalized bone fragment after autoclaving in an open fracture, 336

Autogenous bone graft
Distal femur as a donor site of autogenous cancellous bone graft, 145

Axillary block
Reduction of forearm fractures in children using axillary block anesthesia, 407

Bacitracin
Toxic effects of wound irrigation solutions on cultured tibiae and osteoblasts, 303

Bending stiffness
An investigation of the bending stiffness of and the plane stresses generated by a flanged external fixator pin, 83

Bennett's fracture
Nonoperative treatment of Bennett's fracture: A 13-year follow-up, 23

Betadine scrub
Toxic effects of wound irrigation solutions on cultured tibiae and osteoblasts, 303

Betadine solution
Toxic effects of wound irrigation solutions on cultured tibiae and osteoblasts, 303

Biomechanics
A biomechanical comparison of two methods of fixation of fractures of the forearm, 198

A biomechanical evaluation of the long stem intramedullary hip screw, 45

A mechanical comparison of the dynamic compression plate, limited contact-dynamic compression plate, and point contact fixator, 17

Reconstructive strategies for radioulnar dissociation: A biomechanical study, 516

Bipolar prosthesis
Modular unipolar versus bipolar prosthesis: A prospective evaluation of functional outcome after femoral neck fracture, 298

Blister
Treatment of fracture blister: A prospective study of 53 cases, 171

Bone
Toxic effects of wound irrigation solutions on cultured tibiae and osteoblasts, 303

Bone cells
Toxic effects of wound irrigation solutions on cultured tibiae and osteoblasts, 303

Bone graft
Composite bone grafting and plate fixation for the treatment of nonunions of the forearm with segmental bone loss: A report of eight cases, 419

Distal femur as a donor site of autogenous cancellous bone graft, 145

Indirect reduction and internal fixation of supracondylar femur fractures without bone graft, 278

Bone loss
Composite bone grafting and plate fixation for the treatment of nonunions of the forearm with segmental bone loss: A report of eight cases, 419

Bone mineral density
Correlates of bone mineral density in elderly patients with hip fractures, 470

Book reviews
Arthroscopy of the Wrist and Elbow, edited by Gary G. Poehling, 271

Current Practice of Fracture Management, edited by P.C. Leung, 361

Disorders of the Pediatric Spine, edited by Dachling Pang, 360

Fractures of the Pelvis and Acetabulum, edited by Marvin Tile, 359

Knee Arthroplasty, edited by Paul Lotke, 272

Low Back Pain Syndrome, by Rene Calliet, 272

Manual of Acute Orthopaedic Therapeutics, edited by Larry D. Iverson and Marc F. Swiontkowski, 360

Physical Therapy for Traumatic Brain Injury, edited by Jacqueline Montgomery, 360

Principles of Shoulder Imaging, edited by David Sartoris, 272

Reconstructive Knee Surgery, edited by D. W. Jackson, 271

The Thumb, edited by James W. Strickland, 271

Total Hip Revision Surgery, edited by Jorge Galante, Aaron Rosenberg, and John Callaghan, 272

Upper Extremity Injuries in the Athlete, edited by Arthur M. Pappas, 361

Burst fracture
Burst fracture of the fifth lumbar vertebra in combination with a pelvic ring injury, 345

Late-onset sternomanubrial dislocation with progressive kyphotic deformity after a thoracic burst fracture, 350

Sagittal contour restoration and canal clearance in burst fractures of the thoracolumbar junction (T12-L1): The efficacy of timing of the surgery, 491

Calcaneus
Contact characteristics of the subtalar joint after a simulated calcaneus fracture, 251

Internal fixation of calcaneus fractures: An anatomical study of structures at risk, 107

Calcium intake
Correlates of bone mineral density in elderly patients with hip fractures, 470

Cancellous bone
Distal femur as a donor site of autogenous cancellous bone graft, 145

Cephalomedullary nail
The reconstruction locked nail for complex fractures of the proximal femur, 453

Cerclage
A biomechanical study of three wiring techniques for cerclage-plating, 381

Cervical collar
Marginal n..andibular nerve palsy due to compression by a cervical hard collar, 177

Cervical spine
Marginal mandibular nerve palsy due to compression by a cervical hard collar, 177

Chymase
Fracture healing and mast cells, 482

Clavicle
The unstable shoulder girdle: Early functional treatment utilizing open reduction and internal fixation, 93

Closed reduction
Closed reduction and percutaneous pinning for type III displaced supracondylar fractures of the humerus in children, 511

Closed reduction and percutaneous pinning of displaced supracondylar humerus fractures in children: Description of a new closed reduction technique for fractures with brachialis muscle entrapment, 430

Hematoma block for ankle fractures: A safe and efficacious technique for manipulations, 113

Complications
Complications of nailing in closed tibial fractures, 476

Early versus delayed treatment of severe ankle fractures: A comparison of results, 377

The reconstruction locked nail for complex fractures of the proximal femur, 453

Compression plate
Compression plating versus Hackethal nailing in closed humeral shaft fractures failing nonoperative reduction, 194
A mechanical comparison of the dynamic compression plate, limited contact-dynamic compression plate, and point contact fixator, 17

Computed tomography
Is computed tomography useful after simple posterior hip dislocation?, 388

Contact characteristics
Contact characteristics of the subtalar joint after a simulated calcaneus fracture, 251

Coracoacromial ligament
Surgical treatment of complete acromioclavicular dislocation using the coracoacromial ligament and coracoclavicular fixation: Report of a technique in 14 patients, 507

Coracoclavicular fixation
Surgical treatment of complete acromioclavicular dislocation using the coracoacromial ligament and coracoclavicular fixation: Report of a technique in 14 patients, 507

Cortical screw support
Quality of reduction and cortical screw support in femoral neck fractures, 215

Cubitus varus deformity
Analysis of tardy ulnar nerve palsy associated with cubitus varus deformity after a supracondylar fracture of the humerus: A report of four cases, 435

Cuff tear
Titanium anchors for the repair of rotator cuff tears: Preliminary report of a surgical technique, 312

Debridement
Osteomyelitis in Grade II and III open tibia fractures with late debridement, 121

Delayed treatment
Early versus delayed treatment of severe ankle fractures: A comparison of results, 377

Devitalized bone fragment
Reimplantation of a contaminated and devitalized bone fragment after autoclaving in an open fracture, 336

Diagnosis
Experimental study of early diagnosis and treatment of fat embolism syndrome, 183

Diaphysis fixation
A mechanical comparison of the dynamic compression plate, limited contact-dynamic compression plate, and point contact fixator, 17

Dislocation
Acute posterior fracture dislocations of the shoulder treated with the Neer modification of the McLaughlin procedure, 190
Bilateral posterior fracture-dislocation of the shoulders: Management by bilateral shoulder hemiarthroplasties, 526
Controversies on the treatment of irreducible elbow dislocations with an associated nonsalvageable radial head fracture, 341
Is computed tomography useful after simple posterior hip dislocation?, 388
Lumbosacral fracture-subluxation associated with bilateral fractures of the first sacral pedicles: A case report and review of the literature, 354
Major open injuries of the talus, 371
Open dislocation of the knee, 135
Surgical treatment of complete acromioclavicular dislocation using the coracoacromial ligament and coracoclavicular fixation: Report of a technique in 14 patients, 507
Traumatic anterior dislocation of the radial head in an adult, 441
Traumatic dislocation of the lateral sesamoid of the great toe: Nonoperative management, 180

Disseminated intravascular coagulation
Lower leg fracture with Parkes-Weber syndrome complicated by disseminated intravascular coagulation, 449

Distal screws
A simple technique for insertion of distal screws into interlocking nails, 227

Donor site
Distal femur as a donor site of autogenous cancellous bone graft, 145

Early range of motion
Fractures of the radial head treated by internal fixation late results in 26 cases, 318

Elbow
Controversies on the treatment of irreducible elbow dislocations with an associated nonsalvageable radial head fracture, 341

Extensor mechanism ruptures
Repair of patellar tendon disruptions without hardware, 238

External fixation
Articulated external fixation of pilon fractures: The effects on ankle joint kinematics, 76

Extracellular matrix
Fracture healing and mast cells, 482

Fat embolism syndrome
Experimental study of early diagnosis and treatment of fat embolism syndrome, 183

Femoral stiffness
Femoral stiffness after osteosynthesis of a subcapital osteotomy in osteoporotic bone: An in-vitro comparison of nine fixation methods, 464

Femur
Anatomy of the medial distal femur: A study of the adductor hiatus, 63
Distal femoral nonunion: Treatment with a retrograde inserted locked intramedullary nail, 285
Distal femur as a donor site of autogenous cancellous bone graft, 145
Femoral stiffness after osteosynthesis of a subcapital osteotomy in osteoporotic bone: An in-vitro comparison of nine fixation methods, 464
Intramedullary nailing of acute femoral shaft fractures using manual traction without a fracture table, 57
Mechanics of retrograde nail versus plate fixation for supracondylar femur fractures, 152
Modular unipolar versus bipolar prosthesis: A prospective evaluation of functional outcome after femoral neck fracture, 298
Quality of reduction and cortical screw support in femoral neck fractures, 215
The reconstruction locked nail for complex fractures of the proximal femur, 453
Retrograde femoral nailing between an ankylosed hip and a stiff knee, 266
Total knee replacement including a modular distal femoral component in elderly patients with acute fracture or nonunion, 231

Finite element analysis
An investigation of the bending stiffness of and the plane stresses generated by a flanged external fixator pin, 83

Fixation
A biomechanical study of three wiring techniques for cerclage-plating, 381
Chronic fracture-separation of the radial head in a child, 259
Femoral stiffness after osteosynthesis of a subcapital osteotomy in osteoporotic bone: An in-vitro comparison of nine fixation methods, 464
Internal fixation of calcaneus fractures: An anatomical study of structures at risk, 107
Late-onset sternomanubrial dislocation with progressive kyphotic deformity after a thoracic burst fracture, 350
A mechanical comparison of the dynamic compression plate, limited contact-dynamic compression plate, and point contact fixator, 17
A simple external fixator for use in metacarpal and phalangeal fractures: A technique paper, 333
The use of combination internal fixation and hybrid external fixation in severe proximal tibia fractures, 244

Fixator
A simple external fixator for use in metacarpal and phalangeal fractures: A technique paper, 333

Flanged external fixator pin
An investigation of the bending stiffness of and the plane stresses generated by a flanged external fixator pin, 83

Forearm
A biomechanical comparison of two methods of fixation of fractures of the forearm, 198
Composite bone grafting and plate fixation for the treatment of nonunions of the forearm with segmental bone loss: A report of eight cases, 419
Reconstructive strategies for radioulnar dissociation: A biomechanical study, 516
Reduction of forearm fractures in children using axillary block anesthesia, 407

Forearm compartment syndrome
Delayed onset of forearm compartment syndrome: A complication of distal radius fracture in young adults, 411

Fracture
Acute posterior fracture dislocations of the shoulder treated with the Neer modification of the McLaughlin procedure, 190
Analysis of tardy ulnar nerve palsy associated with cubitus varus deformity after a supracondylar fracture of the humerus: A report of four cases, 435
Articulated external fixation of pilon fractures: The effects on ankle joint kinematics, 76
Bilateral posterior fracture-dislocation of the shoulders: Management by bilateral shoulder hemiarthroplasties, 526
A biomechanical comparison of two methods of fixation of fractures of the forearm, 198
A biomechanical study of three wiring techniques for cerclage-plating, 381
Chronic fracture-separation of the radial head in a child, 259

Closed reduction and percutaneous pinning for type III displaced supracondylar fractures of the humerus in children, 511
Closed reduction and percutaneous pinning of displaced supracondylar humerus fractures in children: Description of a new closed reduction technique for fractures with brachialis muscle entrapment, 430
Complications of nailing in closed tibial fractures, 476
Compression plating versus Hackethal nailing in closed humeral shaft fractures failing nonoperative reduction, 194
Contact characteristics of the subtalar joint after a simulated calcaneus fracture, 251
Controversies on the treatment of irreducible elbow dislocations with an associated nonsalvageable radial head fracture, 341
Correlates of bone mineral density in elderly patients with hip fractures, 470
Degenerative arthritis after tibial plateau fractures, 273
Delayed onset of forearm compartment syndrome: A complication of distal radius fracture in young adults, 411
Early versus delayed treatment of severe ankle fractures: A comparison of results, 377
Effect of nonsteroidal antiinflammatory drugs and fracture healing: A laboratory study in rats, 392
Effects of supine positioning and fracture post placement on the perineal countertraction force in awake volunteers, 164
Failure of the gamma nail in a highly unstable proximal femur fracture: Report of four cases encountered in the Netherlands, 53
Femoral stiffness after osteosynthesis of a subcapital osteotomy in osteoporotic bone: An in-vitro comparison of nine fixation methods, 464
Fracture healing and mast cells, 482
Fracture of a supracondylar humeral myositis ossificans, 263
Fracture of the trochlea, 530
Fractures of the radial head treated by internal fixation late results in 26 cases, 318
Hematoma block for ankle fractures: A safe and efficacious technique for manipulations, 113
Internal fixation of calcaneus fractures: An anatomical study of structures at risk, 107
Intramedullary nailing of acute femoral shaft fractures using manual traction without a fracture table, 57
Intraoperative somatosensory evoked potential monitoring during acute pelvic fracture surgery, 28
Lower leg fracture with Parkes-Weber syndrome complicated by disseminated intravascular coagulation, 449
Lumbosacral fracture-subluxation associated with bilateral fractures of the first sacral pedicles: A case report and review of the literature, 354
Major open injuries of the talus, 371
Management protocol for unreamed interlocking tibial nails for open tibial fractures, 117
Measurement of serum angiogenic factor in devascularized experimental tibial fractures, 324
A mechanical comparison of the dynamic compression plate, limited contact-dynamic compression plate, and point contact fixator, 17
Mechanics of retrograde nail versus plate fixation for supracondylar femur fractures, 152
Modular unipolar versus bipolar prosthesis: A prospective evaluation of functional outcome after femoral neck fracture, 298
Neurovascular injury as a complication of subclavicular migration of a fractured humeral head: A case report and review of the literature, 445
Nonreamed nailing of tibial diaphyseal fractures in blunt polytrauma patients, 66
Osteomyelitis in Grade II and III open tibia fractures with late debridement, 121
Quality of reduction and cortical screw support in femoral neck fractures, 215
The reconstruction locked nail for complex fractures of the proximal femur, 453
Reduction of forearm fractures in children using axillary block anesthesia, 407
Response of the lateral meniscus of the dog to wide incision and repair of the meniscotibial ligament, 141
A simple external fixator for use in metacarpal and phalangeal fractures: A technique paper, 333
Structural allografts for reconstruction of lower extremity open fractures with 10 centimeters or more of acute segmental defects, 222
Total knee replacement including a modular distal femoral component in elderly patients with acute fracture or nonunion, 231
Treatment of fracture blister: A prospective study of 53 cases, 171
The unstable shoulder girdle: Early functional treatment utilizing open reduction and internal fixation, 93
The use of combination internal fixation and hybrid external fixation in severe proximal tibia fractures, 244
The use of sonography for evaluation of the integrity healing process of the tibiofibular interosseous membrane in ankle fractures, 98

Gamma nail
Failure of the gamma nail in a highly unstable proximal femur fracture: Report of four cases encountered in the Netherlands, 53

Geriatric surgery
Treatment of unstable peritrochanteric fractures in elderly patients with a compression hip screw or with the vandeputte (VDP) endoprosthesis: A prospective randomized study, 292

Gonarthrosis
Total knee replacement including a modular distal femoral component in elderly patients with acute fracture or nonunion, 231

Grafting
Sural nerve grafting for lower extremity nerve injuries, 158

Great toe
Traumatic dislocation of the lateral sesamoid of the great toe: Nonoperative management, 180

Hackethal nailing
Compression plating versus Hackethal nailing in closed humeral shaft fractures failing nonoperative reduction, 194

Healing
Effect of nonsteroidal antiinflammatory drugs and fracture healing: A laboratory study in rats, 392
Fracture healing and mast cells, 482
Management protocol for unreamed interlocking tibial nails for open tibial fractures, 117

Hematoma block
Hematoma block for ankle fractures: A safe and efficacious technique for manipulations, 113

Hemiarthroplasty
Bilateral posterior fracture-dislocation of the shoulders: Management by bilateral shoulder hemiarthroplasties, 526

Heterotopic ossification
Retrograde femoral nailing between an ankylosed hip and a stiff knee, 266

Hip
Correlates of bone mineral density in elderly patients with hip fractures, 470
Failure of the gamma nail in a highly unstable proximal femur fracture: Report of four cases encountered in the Netherlands, 53
Is computed tomography useful after simple posterior hip dislocation?, 388

Humerus
Analysis of tardy ulnar nerve palsy associated with cubitus varus deformity after a supracondylar fracture of the humerus: A report of four cases, 435
Closed reduction and percutaneous pinning for type III displaced supracondylar fractures of the humerus in children, 511
Closed reduction and percutaneous pinning of displaced supracondylar humerus fractures in children: Description of a new closed reduction technique for fractures with brachialis muscle entrapment, 430
Compression plating versus Hackethal nailing in closed humeral shaft fractures failing nonoperative reduction, 194
Neurovascular injury as a complication of subclavicular migration of a fractured humeral head: A case report and review of the literature, 445

Hybrid external fixation
The use of combination internal fixation and hybrid external fixation in severe proximal tibia fractures, 244

Hydrogen peroxide
Toxic effects of wound irrigation solutions on cultured tibia and osteoblasts, 303

Iatrogenic posterior interosseous nerve injury
Iatrogenic posterior interosseous nerve injury: Is transosseous static locked nailing of the radius feasible?, 427

Ibuprofen
Effect of nonsteroidal antiinflammatory drugs and fracture healing: A laboratory study in rats, 392

Immobilization
Marginal mandibular nerve palsy due to compression by a cervical hard collar, 177

Impaction fracture
Acute posterior fracture dislocations of the shoulder treated with the Neer modification of the McLaughlin procedure, 190

Indirect reduction
Indirect reduction and internal fixation of supracondylar femur fractures without bone graft, 278

Indomethacin
Effect of nonsteroidal antiinflammatory drugs and fracture healing: A laboratory study in rats, 392

Interlocking nails
A simple technique for insertion of distal screws into interlocking nails, 227

Internal fixation
A biomechanical comparison of two methods of fixation of fractures of the forearm, 198
Composite bone grafting and plate fixation for the treatment of nonunions of the forearm with segmental bone loss: A report of eight cases, *419*
Failure of the gamma nail in a highly unstable proximal femur fracture: Report of four cases encountered in the Netherlands, 53
Mechanics of retrograde nail versus plate fixation for supracondylar femur fractures, 152
Treatment of unstable peritrochanteric fractures in elderly patients with a compression hip screw or with the vandeputte (VDP) *endoprosthesis: A prospective randomized* study, 292

Interosseous membranes
The use of sonography for evaluation of the integrity healing process of the tibiofibular *interosseous membrane in ankle fractures*, 98

Intramedullary nailing
A comparison of malreduction after plate and intramedullary nail fixation of forearm fractures, 8
Complications of nailing in closed tibial fractures, 476
Intramedullary nailing of acute femoral shaft fractures using manual traction without a fracture table, 57
Intramedullary nailing of aseptic tibial nonunions without the use of the fracture table, 128

Intramedullary rodding
A biomechanical comparison of two methods of fixation of fractures of the forearm, 198

Kinematics
Articulated external fixation of pilon fractures: The effects on ankle joint kinematics, 76

Kirschner wires
A simple external fixator for use in metacarpal and phalangeal fractures: A technique paper, 333

Knee
Open dislocation of the knee, 135
Total knee replacement including a modular distal femoral component in elderly patients with acute fracture or nonunion, 231

Kyphosis
Late-onset sternomanubrial dislocation with progressive kyphotic deformity after a thoracic burst fracture, 350

Locked unreamed nail
Management protocol for unreamed interlocking tibial nails for open tibial fractures, 117

Long-stem intramedullary hip screw
A biomechanical evaluation of the long stem intramedullary hip screw, 45

Lower extremity
Lower leg fracture with Parkes-Weber syndrome complicated by disseminated intravascular coagulation, 449
Structural allografts for reconstruction of lower extremity open fractures with 10 centimeters or more of acute segmental defects, 222
Sural nerve grafting for lower extremity nerve injuries, 158

Lumbosacral junction
Lumbosacral fracture-subluxation associated with bilateral fractures of the first sacral pedicles: A case report and review of the literature, 354

Malreduction
A comparison of malreduction after plate and intramedullary nail fixation of forearm *fractures*, 8

Manual traction
Intramedullary nailing of acute femoral shaft fractures using manual traction without a fracture table, 57

Mast cells
Fracture healing and mast cells, 482

Mechanical complications
Treatment of unstable peritrochanteric fractures in elderly patients with a compression hip screw or with the vandeputte (VDP) endoprosthesis: A prospective randomized study, 292

Mechanical testing
Mechanics of retrograde nail versus plate fixation for supracondylar femur fractures, 152

Meniscotibial ligament
Response of the lateral meniscus of the dog to wide incision and repair of the meniscotibial ligament, 141

Meniscus
Response of the lateral meniscus of the dog to wide incision and repair of the meniscotibial ligament, 141

Metacarpal
A simple external fixator for use in metacarpal and phalangeal fractures: A technique paper, 333

Model
Experimental study of early diagnosis and treatment of fat embolism syndrome, 183

Myositis ossificans traumatica
Fracture of a supracondylar humeral myositis ossificans, 263

Nerve injury
Sural nerve grafting for lower extremity nerve injuries, 158

Neurovascular injury
Neurovascular injury as a complication of subclavicular migration of a fractured humeral head: A case report and review of the literature, 445

Nonoperative treatment
Nonoperative treatment of Bennett's fracture: A 13-year follow-up, 23

Nonreamed nailing
Nonreamed nailing of tibial diaphyseal fractures in blunt polytrauma patients, 66

Nonunion
The complication and difficulties of management of nonunion in the severely obese, 363
Composite bone grafting and plate fixation for the treatment of nonunions of the forearm with segmental bone loss: A report of eight cases, 419
Distal femoral nonunion: Treatment with a retrograde inserted locked intramedullary nail, 285
Intramedullary nailing of aseptic tibial nonunions without the use of the fracture table, 128
Total knee replacement including a modular distal femoral component in elderly patients with acute fracture or nonunion, 231

NSAIDs
Fracture healing and mast cells, 482

Obesity
The complication and difficulties of management of nonunion in the severely obese, 363

Open fracture
Management protocol for unreamed interlocking tibial nails for open tibial fractures, 117
Osteomyelitis in Grade II and III open tibia fractures with late debridement, 121

Open injury
Open dislocation of the knee, 135

Operative technique
Failure of the gamma nail in a highly unstable proximal femur fracture: Report of four cases encountered in the Netherlands, 53

Osteoarthritis
Degenerative arthritis after tibial plateau *fractures*, 273

Osteoblast
Bone toxicity of locally applied aminoglycosides, 401
Toxic effects of wound irrigation solutions on *cultured tibiae and osteoblasts*, 303

Osteomyelitis
Osteomyelitis in Grade II and III open tibia fractures with late debridement, 121

Osteosynthesis
Femoral stiffness after osteosynthesis of a subcapital osteotomy in osteoporotic bone: An in-vitro comparison of nine fixation methods, 464
The unstable shoulder girdle: Early functional treatment utilizing open reduction and internal fixation, 93

Osteotomy
A comparison of malreduction after plate and intramedullary nail fixation of forearm fractures, 8
Femoral stiffness after osteosynthesis of a subcapital osteotomy in osteoporotic bone: An in-vitro comparison of nine fixation methods, 464

Parkes-Weber syndrome
Lower leg fracture with Parkes-Weber syndrome complicated by disseminated intravascular coagulation, 449

Patellar tendon
Repair of patellar tendon disruptions without hardware, 238

Pediatric patient
Chronic fracture-separation of the radial head in a child, 259
Closed reduction and percutaneous pinning for type III displaced supracondylar fractures of the humerus in children, 511
Closed reduction and percutaneous pinning of displaced supracondylar humerus fractures in children: Description of a new closed reduction technique for fractures with brachialis muscle entrapment, 430
Reduction of forearm fractures in children using axillary block anesthesia, 407

Pelvic ring injury
Burst fracture of the fifth lumbar vertebra in combination with a pelvic ring injury, 345

Pelvis
Intraoperative somatosensory evoked potential monitoring during acute pelvic fracture surgery, 28
The retrograde medullary superior pubic ramus screw for the treatment of anterior pelvic ring disruptions: A new technique, 35

Percutaneous iliosacral screws
Early results of percutaneous iliosacral screws placed with the patient in the supine position, 207

Percutaneous pinning
Closed reduction and percutaneous pinning for type III displaced supracondylar fractures of the humerus in children, 511
Closed reduction and percutaneous pinning of displaced supracondylar humerus fractures in children: Description of a new closed reduction technique for fractures with brachialis muscle entrapment, 430
Peritrochanteric fracture
Failure of the gamma nail in a highly unstable proximal femur fracture: Report of four cases encountered in the Netherlands, 53
Treatment of unstable peritrochanteric fractures in elderly patients with a compression hip screw or with the vandeputte (VDP) endoprosthesis: A prospective randomized study, 292
Phalangeal shaft
A simple external fixator for use in metacarpal and phalangeal fractures: A technique paper, 333
Pilon fracture
Articulated external fixation of pilon fractures: The effects on ankle joint kinematics, 76
Pin-bone interface
An investigation of the bending stiffness of and the plane stresses generated by a flanged external fixator pin, 83
Plate fixation
A comparison of malreduction after plate and intramedullary nail fixation of forearm fractures, 8
Plating
A biomechanical study of three wiring techniques for cerclage-plating, 381
Pneumatic leg compression devices
Effectiveness of pneumatic leg compression devices for the prevention of thromboembolic disease in orthopaedic trauma patients: A prospective, randomized study of compression alone versus no prophylaxis, 1
Prosthetic replacement
Treatment of unstable peritrochanteric fractures in elderly patients with a compression hip screw or with the vandeputte (VDP) endoprosthesis: A prospective randomized study, 292
Pudendal nerve palsy
Effects of supine positioning and fracture post placement on the perineal countertraction force in awake volunteers, 164

Radial angulation
A comparison of malreduction after plate and intramedullary nail fixation of forearm fractures, 8
Radial bow
A comparison of malreduction after plate and intramedullary nail fixation of forearm fractures, 8
Radioulnar dissociation
Reconstructive strategies for radioulnar dissociation: A biomechanical study, 516
Radius
Chronic fracture-separation of the radial head in a child, 259
Controversies on the treatment of irreducible elbow dislocations with an associated nonsalvageable radial head fracture, 341
Delayed onset of forearm compartment syndrome: A complication of distal radius fracture in young adults, 411
Fractures of the radial head treated by internal fixation late results in 26 cases, 318
Reconstructive strategies for radioulnar dissociation: A biomechanical study, 516
Traumatic anterior dislocation of the radial head in an adult, 441
Rats
Effect of nonsteroidal antiinflammatory drugs and fracture healing: A laboratory study in rats, 392
Reconstruction nail
The reconstruction locked nail for complex fractures of the proximal femur, 453
Reduction
Early versus delayed treatment of severe ankle fractures: A comparison of results, 377
Quality of reduction and cortical screw support in femoral neck fractures, 215
Reimplantation
Reimplantation of a contaminated and devitalized bone fragment after autoclaving in an open fracture, 336
Removal techniques
Techniques for the removal of broken small-diameter tibial nails: A report of two cases, 523
Retrograde medullary superior pubic ramus screw
The retrograde medullary superior pubic ramus screw for the treatment of anterior pelvic ring disruptions: A new technique, 35
Retrograde nailing
Distal femoral nonunion: Treatment with a retrograde inserted locked intramedullary nail, 285
Retrograde femoral nailing between an ankylosed hip and a stiff knee, 266
Rigidity
Mechanics of retrograde nail versus plate fixation for supracondylar femur fractures, 152

Scapula
The unstable shoulder girdle: Early functional treatment utilizing open reduction and internal fixation, 93
Serum angiogenic factor
Measurement of serum angiogenic factor in devascularized experimental tibial fractures, 324
Sesamoid
Traumatic dislocation of the lateral sesamoid of the great toe: Nonoperative management, 180
Short segment fusion
Transpedicular instrumentation and short-segment fusion of thoraco-lumbar fractures: A prospective study using a single instrumentation system, 499
Short segment transpedicular fixation
Sagittal contour restoration and canal clearance in burst fractures of the thoracolumbar junction (T12-L1): The efficacy of timing of the surgery, 491
Shoulder
Acute posterior fracture dislocations of the shoulder treated with the Neer modification of the McLaughlin procedure, 190
Bilateral posterior fracture-dislocation of the shoulders: Management by bilateral shoulder hemiarthroplasties, 526
The unstable shoulder girdle: Early functional treatment utilizing open reduction and internal fixation, 93
Skin
Treatment of fracture blister: A prospective study of 53 cases, 171
Small-diameter nails
Techniques for the removal of broken small-diameter tibial nails: A report of two cases, 523
Somatosensory evoked potentials
Intraoperative somatosensory evoked potential monitoring during acute pelvic fracture surgery, 28
Sonography
The use of sonography for evaluation of the integrity healing process of the tibiofibular interosseous membrane in ankle fractures, 98
Spinal canal encroachment
Sagittal contour restoration and canal clearance in burst fractures of the thoracolumbar junction (T12-L1): The efficacy of timing of the surgery, 491
Spinal instrumentation
Lumbosacral fracture-subluxation associated with bilateral fractures of the first sacral pedicles: A case report and review of the literature, 354
Stability
Controversies on the treatment of irreducible elbow dislocations with an associated nonsalvageable radial head fracture, 341
Stable fixation
Fractures of the radial head treated by internal fixation late results in 26 cases, 318
Sternum
Late-onset sternomanubrial dislocation with progressive kyphotic deformity after a thoracic burst fracture, 350
Structural allografts
Structural allografts for reconstruction of lower extremity open fractures with 10 centimeters or more of acute segmental defects, 222
Subclavicular migration
Neurovascular injury as a complication of subclavicular migration of a fractured humeral head: A case report and review of the literature, 445
Subscapularis tendon
Acute posterior fracture dislocations of the shoulder treated with the Neer modification of the McLaughlin procedure, 190
Subtalar joint
Contact characteristics of the subtalar joint after a simulated calcaneus fracture, 251
Supracondylar femur fracture
Indirect reduction and internal fixation of supracondylar femur fractures without bone graft, 278
Mechanics of retrograde nail versus plate fixation for supracondylar femur fractures, 152
Supracondylar humerus fracture
Analysis of tardy ulnar nerve palsy associated with cubitus varus deformity after a supracondylar fracture of the humerus: A report of four cases, 435
Closed reduction and percutaneous pinning for type III displaced supracondylar fractures of the humerus in children, 511
Closed reduction and percutaneous pinning of displaced supracondylar humerus fractures in children: Description of a new closed reduction technique for fractures with brachialis muscle entrapment, 430
Supracondylar intramedullary nail
Distal femoral nonunion: Treatment with a retrograde inserted locked intramedullary nail, 285
Supracondylar process
Fracture of a supracondylar humeral myositis ossificans, 263

Sural nerve
Sural nerve grafting for lower extremity nerve injuries, 158
Surgery
Sagittal contour restoration and canal clearance in burst fractures of the thoracolumbar junction (T12-L1): The efficacy of timing of the surgery, 491
Surgical timing
Sagittal contour restoration and canal clearance in burst fractures of the thoracolumbar junction (T12-L1): The efficacy of timing of the surgery, 491

Talus
Major open injuries of the talus, 371
Tendon repair
Repair of patellar tendon disruptions without hardware, 238
Thoracic fracture
Late-onset sternomanubrial dislocation with progressive kyphotic deformity after a thoracic burst fracture, 350
Thoracolumbar fracture
Transpedicular instrumentation and short-segment fusion of thoraco-lumbar fractures: A prospective study using a single instrumentation system, 499
Thoracolumbar spine trauma
Sagittal contour restoration and canal clearance in burst fractures of the thoracolumbar junction (T12-L1): The efficacy of timing of the surgery, 491
Thromoembolic disease
Effectiveness of pneumatic leg compression devices for the prevention of thromboembolic disease in orthopaedic trauma patients: A prospective, randomized study of compression alone versus no prophylaxis, 1
Thumb
Nonoperative treatment of Bennett's fracture: A 13-year follow-up, 23
Tibia
Complications of nailing in closed tibial fractures, 476
Degenerative arthritis after tibial plateau fractures, 273
Management protocol for unreamed interlocking tibial nails for open tibial fractures, 117
Measurement of serum angiogenic factor in devascularized experimental tibial fractures, 324
Nonreamed nailing of tibial diaphyseal fractures in blunt polytrauma patients, 66
Osteomyelitis in Grade II and III open tibia fractures with late debridement, 121
Response of the lateral meniscus of the dog to wide incision and repair of the meniscotibial ligament, 141
The use of combination internal fixation and hybrid external fixation in severe proximal tibia fractures, 244
Tibial nails
Techniques for the removal of broken small-diameter tibial nails: A report of two cases, 523
Titanium anchors
Titanium anchors for the repair of rotator cuff tears: Preliminary report of a surgical technique, 312
Tobramycin
Bone toxicity of locally applied aminoglycosides, 401
Total knee replacement
Total knee replacement including a modular distal femoral component in elderly patients with acute fracture or nonunion, 231
Toxicity
Bone toxicity of locally applied aminoglycosides, 401
Toxic effects of wound irrigation solutions on cultured tibiae and osteoblasts, 303
Traction
Effects of supine positioning and fracture post placement on the perineal countertraction force in awake volunteers, 164
Transosseous static locked nailing
Iatrogenic posterior interosseous nerve injury: Is transosseous static locked nailing of the radius feasible?, 427
Transpedicular instrumentation
Transpedicular instrumentation and short-segment fusion of thoraco-lumbar fractures: A prospective study using a single instrumentation system, 499
Trauma
Traumatic dislocation of the lateral sesamoid of the great toe: Nonoperative management, 180
Treatment
Experimental study of early diagnosis and treatment of fat embolism syndrome, 183
Treatment of fracture blister: A prospective study of 53 cases, 171
Trochlea
Fracture of the trochlea, 530

Ulnar nerve palsy
Analysis of tardy ulnar nerve palsy associated with cubitus varus deformity after a supracondylar fracture of the humerus: A report of four cases, 435
Unipolar prosthesis
Modular unipolar versus bipolar prosthesis: A prospective evaluation of functional outcome after femoral neck fracture, 298
Unstable shoulder girdle
The unstable shoulder girdle: Early functional treatment utilizing open reduction and internal fixation, 93

Vertebra
Burst fracture of the fifth lumbar vertebra in combination with a pelvic ring injury, 345
Vitamin D
Correlates of bone mineral density in elderly patients with hip fractures, 470

Wound irrigation solutions
Toxic effects of wound irrigation solutions on cultured tibiae and osteoblasts, 303
